 **FEDERAL SIGNAL VAMA**  
Protecting people and our planet

 **MOTOROLA SOLUTIONS**  
Value Added Reseller

Scorpio Ltd. is official distributor of Federal Signal Vama visual and audible warning systems in Hungary.

Our company was founded in June 1990, and is main supplier of the Hungarian government bodies. Our warning signals, traffic devices and specially designed vehicles are widely used.

Our police, forensic and document examination devices are used by several law enforcement bodies, in order to investigate crimes and identify documents.

Our building-engineering and air handling activities include ventilation of boiler houses and garages, construction of central air-conditioning systems in entire complexes, modernization of such systems, air-conditioning of telecommunication containers, maintenance of coolers and cooling towers.

Our company is also engaged in the distribution of vehicle, bus and truck heating, cooling and ventilation systems, telecommunications, electrical devices, inverters, battery chargers, scene lights, vehicle lamps, flashlights, hand and head lamps.

Scorpio Ltd. is an EN ISO 9001:2015 and AQAP 2110:2016 NATO certified company.

### Police vehicles

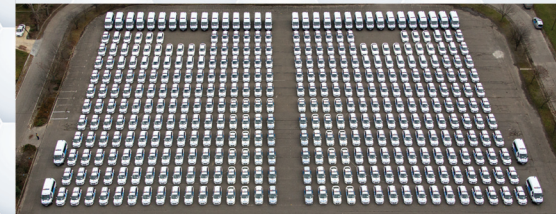

Our company plays a key role in the design and delivery of police vehicles. We are a regular supplier of the National Police Headquarters.

#### Main functions of the police vehicles:

- >> Serve and protect on the roads
- >> Supervision and control for crime prevention and investigation purposes

- >> National Police Headquarters >> County Police Headquarters >> Intervention Police
- >> National Tax and Customs Administration >> National Ambulance Service
- >> Ministry of Defence >> Budapest Transport Company and BKK Center for Budapest Transport

### Police and investigation equipments

SIRCHIE

We are the exclusive distributor of one of the largest manufacturers of forensic equipments and devices, SIRCHIE, in Hungary. Their products are used by numerous law enforcement bodies of the world for crime investigation, collection of evidences and examinations, etc. Its wide range of products includes among other things evidence drying cabinets, blood search and identification devices, drug identification, DNA identification kits, gunpowder particle detection kits, in addition to fingerprint identification powders and brushes.

Foster + Freeman

Scorpio Ltd. is also the exclusive distributor of the products of Foster + Freeman in Hungary. The products of the manufacturer include fingerprint capturing materials and devices, forensic search lights, document examination devices and evidence analyzing devices.

The examination devices used for various documents, such as VSC8000 and VSC40 are the most frequently used products in Hungary. These devices allow the examination of various documents such as banknotes, passports and identity cards.

### Building engineering, air-handling

We have been engaged in air-conditioners and air-handlers as well as the sales, installation and maintenance of small, medium and industrial building HVAC systems since 1994. We are the exclusive distributors of the professional Italian ARGO air-conditioners and their parts on the Hungarian market.

Our company has been engaged in the installation and maintenance of industrial air-conditioners, precision air-conditioners and various ventilation equipment for years.

We were the first to deal with the conversion of industrial cooling systems to environment-friendly coolant systems.

#### Maintenance of building engineering

We provide constant maintenance services for equipments installed by us. We maintain a wide network of parts suppliers, which allows us to deliver quickly and professionally.

We perform general maintenance once a year, preparing the different installations to the heating and cooling seasons.

In case of reports concerning technical malfunctions, we arrive on the site in the shortest possible time and commence troubleshooting and elimination of problems at once.

### Design of special vehicles

We have many years of experience in the design of special vehicle superstructures. We have varied and specific references in this field.

#### Our main and most prominent special vehicles:

##### Our special vehicles supplied to the National Police Headquarters:

- >> Mobile Thermal Image Surveillance System
- >> Schengen bus
- >> Police vehicles
- >> Prisoner transport vehicles

##### Our special vehicles supplied to other government bodies and companies:

- >> Design of special armored vehicles and prisoner transport vehicles for the Hungarian Prison Services
- >> Design of a special field measuring vehicle for the National Media and Infocommunications Authority
- >> Design of mobile ticket selling vehicles for MÁV-Start Zrt.
- >> Design of a library bus for the Mórícz Zsigmond County and Municipal Library of Nyíregyháza
- >> Design of complete office-buses for 3 persons for the National Tax and Customs Authority
- >> Delivery of ambulance vehicles to the National Ambulance Service

### Inverters, chargers

The inverter itself is a simple voltage converter.

- >> True sine wave operation
- >> Microprocessor-controlled adaptive charging, four stage charging characteristics
- >> UPS function, the inverter automatically activates in the case of a power shortage, and the electrical devices continue to operate without interruption
- >> Possibility of remote monitoring and control from phone, tablet, notebook and PC
