

# Viper S2

It Is What's Inside That Matters

# Viper™ S2

Viper™ S2 advances auxiliary internal warning to a higher plateau with superior light output, easy-to-select flash patterns, and simple pattern synchronization. The superior warning capability of Solaris™ reflector technology provides a bold array of light and impressive off-axis reflection. Phenomenal light output, versatile mounting options, and simplistic product functionality make the Viper S2 product stand out in the warning light industry.
